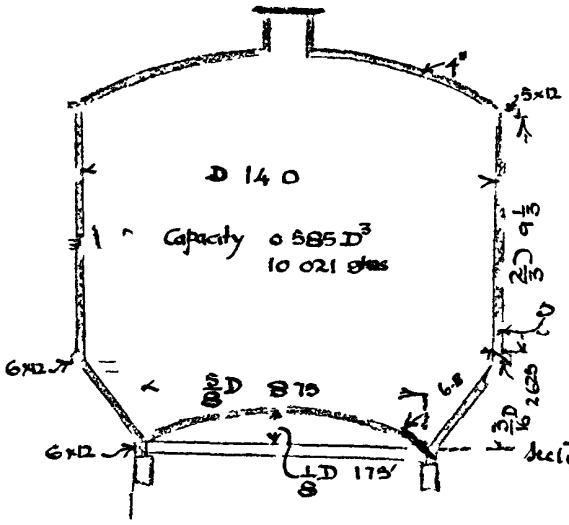
U O No 31 dated 16-8-44

Subject - CONSTRUCTION OF AN OVER HEAD TANK IN TUMKUR TOWN

***

Returned with compliments with the following remarks -

2 The over-head tank is to be of the Intze type being the standard design for tanks of moderately big capacities and also economical compared to the one now proposed The section of the Intze type tank for storing 10,000 gallons, is noted below



Capacity equals 0 585 D^3 equals 10,021 Gls

3 The bracings are to be of 14" X 14" - instead of 12" X 12" as provided now

4 The provisions made for other items of work are in order

5 The provision for the seasonal fluctuations in rates is reduced from 30% to 25% of the work cost

6 The estimate may be prepared on the above line and sanctioned

Law Secretary and Legal Remembrancer, with compliments

1) 2 The design of the tank and the estimate provisions are in order They may be accepted by

Chief Engineer for Irrigation

Law Secretary and Legal Remembrancer

17-1-45

17 1 45

1945

The proposal is to construct a over head tank at Tumkur Town with an estimated cost of Rs 7,000/- which is formed to be in order by the chief Engineer for Irrigation, the cost being met by the port & the local fund in equal proportions

(b) In this connection, it may be stated that so far a sum of Rs 3,400/- has been provided out of the W scheme for 44-45 to the Tumkur Town fund as a subvention promised by the port in the past viz in the year 1939-40

Note—Contn sheet.

W D 554—GBPM—5 000—21 10-42

6077
2 construction of a tank at Thuckalay

It is seen from the sanctioned budget of the Thuckalay Town Panchayat for 44-45, that the financial position of the Panchayat is very unsatisfactory, as the expenditure is in excess of the income and the closing balance is a minus figure

(7) Having in view the above points, points for orders are, -

1) sanction to an estimate for Rs 7000/- for the construction of a overhead tank at Thuckalay

and 2) sanction to a grant of Rs 3,500 out of the W S grant for 44-45 towards half the estimated cost

(8) (A sum of Rs 84,748 is still available out of the W S grant for 44-45)

(9) The estimate for Rs 7000/- requires to be scrutinised by the Chief Engineer for sanction

A grant of Rs 3500/- being a moiety of the estimated cost may be sanctioned for the work out of the water supply grant for 1944-45

Date 11th August 1944

To

[illegible] Esq., B.A., B.L.,
Legal Remembrancer and Secretary to Govt
Law Department, Bangalore.

Sir

Re Construction of an over-head tank in Jail extension, Tumkur -Government grant therefor-

With reference to your letter No. L 1170 dated 2-8-44 on the above subject I have the honor to forward, herewith in original the connected records together with the estimate for Rs 10 825/- received from the President Town Municipal Council, Tumkur and to request that sanction of Government may be kindly obtained to the resolution of the Municipal Council agreeing to meet half the cost of the estimate out of their funds the other half being made up by a subvention from Government under the Water Supply grant

Necessary provision has been made in the current year's budget estimates of the Municipality for meeting their quota of cost in this behalf viz Rs 5412/-

I have the honor to be
Sir

Report to accompany the estimate for constructing an R C C overhead tank of 10,000 gallons capacity on 25 ft staging at Jail Extension, Tumkur

---

The estimate is prepared at the request of the President, Town Municipal Council, Tumkur, with his letter No H C 13/43-44 dated 25-9-1943 The estimate provides for the construction of a reinforced cement concrete overhead tank of 10,000 gallons capacity and on 25 ft staging, as the existing overhead tank of 800 gallons capacity is found to be most inadequate as cited in the letter above

The accompanying estimate provides for all the items of work necessary The cost of the estimate as per the details including E T P charges at 12½% and 30% extra for the future fluctuations in rates is only Rs 10,823/- and is to be born by the President, Town Municipal Council, Tumkur

Sanitary Supdtg Engineer I/C

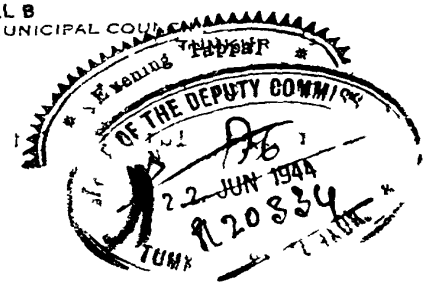
PRESIDENT TOWN MUNICIPAL COUNCIL TUMKUR



The Deputy Commissioner,
Tumkur District,
Tumkur

Subject

Sir

I have the honour to state that the water supply from the Bore well in Mail Extension is not being harressed properly owing to the small capacity of the overhead tank The Sanitary Engineer has proposed to build an overhead tank of 10,000 gallons capacity on a 25-foot staging in order to derive the maximum benefit from the Bore well Supply This work was originally included in a larger scheme of improvements to the water supply which has been dropped for the present by the Council and a separate estimate has been prepared by the Sanitary Engineer, for this work alone The estimate of Rs 10,823, is been sanctioned by the Council at their meeting on 27-3-44 and provision for the expenditure has also been made in the

P.T O

the Budget for 44-45, half the cost to be borne by the Council and the other half to be met by the Government in the shape of a grant This may kindly be recommended to the Government and early orders obtained The estimate and resolution of the Council ~~or~~ are enclosed. for kind perusal and favourable orders thereon

I have the honour to be,
Sir,
Your most obedient servant,
President,
Town Municipal Council,
Tumkur.
